

TwentyOne Skills

AI in Academia: Exploring the Opportunities and Obstacles

Objective

Artificial Intelligence (AI) is here to stay. Its impact on academia can hardly be overstated.

We look at opportunities and risks for important fields such as exams, papers and academic writing, and grant proposals.

Learn how to use AI without fear by understanding how it works and what the pitfalls for academia are.

Description

- Understanding the benefits and limitations of using AI in science
- Learning how to use AI for teaching, academic writing, and grant proposals
- Exploring best practices for using AI in a university or research setting
- Developing strategies for overcoming challenges when using AI

Conditions

In cooperation with TwentyOne Skills, GRADE offers about 35 asynchronous online courses.

The 3-month sessions start at the beginning of January, April, July and October.

Registration is possible at any time. Confirmed participants can access the courses for 3 months at the online platform of TwentyOne Skills.

The registration link can be found here: <https://tinygu.de/en21skills>
